Pool Skimmers and Skim Filters / Renegade Venturi In-Ground Skimmers

The skimmer is a very important part of the filtration system on a swimming pool. The skimmer is permanently installed to skim the top of the pool to collect dirt and debris before they have a chance to sink to the bottom of the pool. The Waterway Renegade Venturi Skimmer has the latest in high tech features and "Service-Ease" design making this the ultimate pool skimmer!

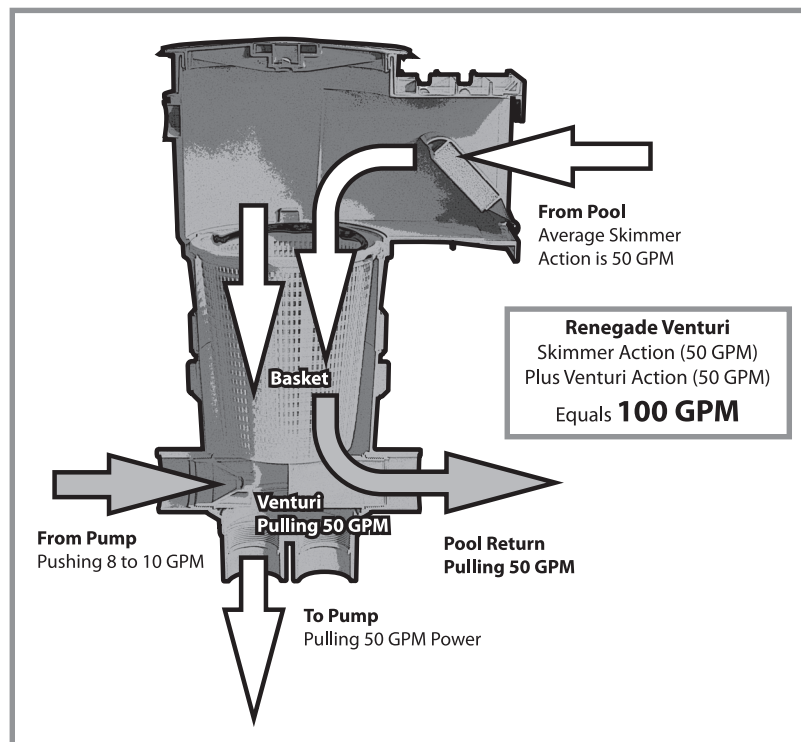

FEATURES:

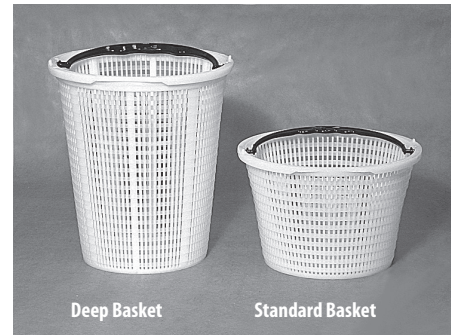

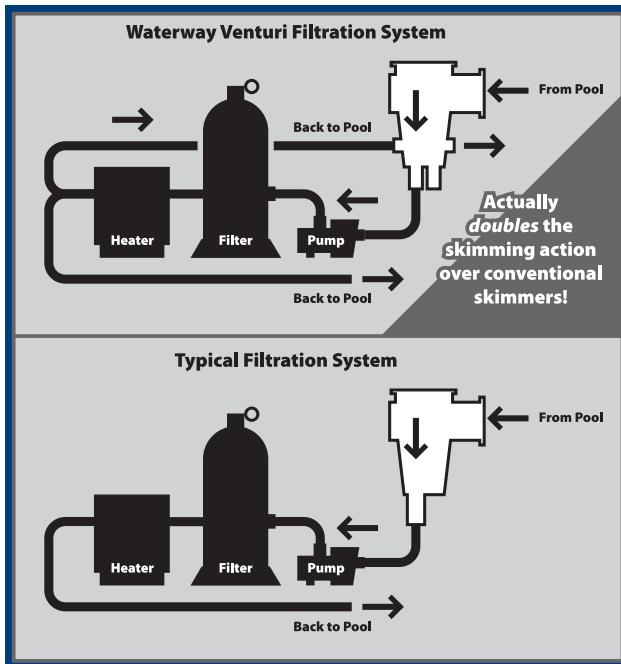

- By using a Venturi, this skimmer doubles the cleaning power without increasing energy costs
- Massive 9" deep basket (twice the size of standard skimmer baskets), can hold 289 cubic inches of debris
- Basket and vacuum plate lock into place instead of floating up when the pump is off
- Weir door is spring-loaded for easy removal- no screws
- NSF approved for 75 GPM – highest in the industry

For replacement parts, see page 305.

The Waterway Venturi Skimmer pulls as much water as the pump, doubling the skimming action while NOT increasing energy costs.

The basket for the Venturi Skimmer and the Deep Basket Skimmer is 9" deep, making the Waterway basket the largest in the industry for extra leaf and debris holding capacity.
